INDEX.

PAGE

ANGLIN, A. H.

On certain results involving areal and trilinear co-ordinates, - - - - - 8

CHREE, C.

Action at a distance, and the transmission of stress by isotropic elastic solid media, - - - 107

GIBSON, G. A.

On the history of the Fourier series, - - - 137

Revue Semestrielle des Publications Mathématiques, - 167

KNOTT, PROFESSOR C. G.

The quaternion and its depreciators, - - - 62

Japanese Arithmetic, - - - - - 167

M'COWAN, J.

Note on the solution of partial differential equations by the method of reciprocation, - - - 2

MACKAY, J. S.

History of the nine-point circle, - - - 19

Early history of the symmedian point, - - 92

Adams's hexagons and circles, - - - 104

OFFICE-BEARERS, - - - - - - 1

PEDDIE, W.

On the use of dimensional equations in physics, - 7

On the fundamental principles of quaternions and other vector analyses, - - - - 85

The elements of quaternions, - - - 104, 130

PAGE

PRESSLAND, A. J.

On some loci connected with conics, - - - 81
Note on a problem in analytical geometry [Abstract], 136

STEGGALL, PROFESSOR J. E. A.

On a geometrical problem [Title], - - - 85
On an algebraical equation of Professor Cayley's [Title], 85

TAIT, PROFESSOR P. G.

Note on attraction, - - - - - 84

TUCKER, R.

A geometrical note, - - - - 57

TWEEDIE, C.

Note on Newton's theorem of symmetric functions, 61
